

## CellAntenna's Corporation's Customer Base Reaches 18,000 as 2005 Begins

*Coral Springs-based company has expanded to Europe and starts the new year with a bang!*

**Coral Springs, FL**, --- CellAntenna Corporation, a leading provider of products and services that solve cellular communications problems including the engineering and installation of in-building systems to increase range and decrease dropped calls has announced that the company's customer base doubled in 2004 from 9000 customers to now more than 18,000 customers, with no limit in sight. In addition, CellAntenna Corporation has recently expanded to the United Kingdom with the formation of CellAntenna Limited, with warehousing facilities located outside London in Enfield.

*Founded over four years ago by Howard and Barbara Melamed, a husband and wife team, CellAntenna Corporation's growth has propelled the company to the top of its field. Now CellAntenna is a multi-million dollar, e-commerce company with a full-time staff of 14. The company offers total solutions for customers with cellular signal issues including boosters that increase the signal, home and small office repeater kits and building repeaters. CellAntenna also provides signal jammers to government agencies.*

Howard Melamed said, "The need for our products has increased dramatically over the last three years and we are one of a few select companies offering our products and services around the world. It's very exciting to start as a small husband and wife team to grow to where we are today with sales in 2005 expected to more than double what we did in 2004."

Headquartered in Coral Springs, Florida, CellAntenna Corporation ([www.cellantenna.com](http://www.cellantenna.com)) has thousands of customers throughout the United States, Europe and South America.

Mr. Melamed, President of CellAntenna, is a leading expert in cell phone technology and is available for interviews.
